About Pediatric Victory Foundation

Pediatric Victory Foundation was founded in 2016, by Monique and Howie Rosenthal, the Rosenthal's Daughter Blayke had been experiencing thirty-five seizure a day, stiffness in walking, extreme memory loss, blackouts and hallucinations. Blayke was going downhill fast. Through many visits to various doctors there seemed to be no hope; until Blayke was seen by Dr. Sankar at UCLA, Rubin Brown Professor and Chief Division of Pediatric Neurology and his team. Through extensive testing, research and determination by the whole Pediatric Neurologists team at UCLA. Blayke was diagnosed with an extremely rare disorder called autoimmune epilepsy, this disease was discovered less than 10 years ago. Thanks to these brilliant doctors, the Rosenthal's little girl is now doing remarkably well and has turned completely around. Blayke is now undergoing a treatments. This is thanks to the research and commitment of the UCLA Pediatric Neurology team. Now, it's our turn to help these amazing doctors save other children's lives...
